—The concert to be given to-night in the Baptist church will be first class in every respect, as some of the very best talent has been engaged for the occasion. The probability is that the house will be crowded, so it would be well to go early in order to secure a seat. Doors open at 7:30, and the exercises begin promptly at 8 o'clock. Tickets may be obtained at the door, or at Newton's book-store. Admission only 15 cts. Proceeds for the cause of missions.

—At a meeting held Saturday evening a tennis association was formed by the election of Rev. Foulk president, Dr. DeBerry vice-president, Frank Mooney secretary, and W. V. Hoagland treasurer. An executive committee consisting of the president, secretary, H. C. Nesbitt, Rev. Hardaway and Arthur Hoagland was appointed. A meeting will be held at the Y. M. C. A. rooms next Thursday evening, and all persons desiring to be members of the association are requested to be present.

A Mr. Ryan, of South Omaha, visited relatives here the first of the week.

—The Telegraph was issued in an enlarged form Saturday, an evidence of prosperity.

—The rain Saturday night is reported to have been pretty general over the county. Some hail fell, but not in sufficient quantity to injure corn.

—Andy Traynor, of Omaha, was in town yesterday, his object being to secure 7,000 tons of baled hay for a New York firm. Unless the freight rates to New York are out in the middle Nebraska shippers cannot ship to that city.

—The Gody Guard went into camp just north of town Saturday evening, and did not break camp until this morning. The boys spent three nights and one day in camp, but took their meals at home.

—Rev. J. C. Irwin sends the following from Colorado Springs: The pulpit of the Presbyterian church in North Platte will be supplied regularly from this time until the return of the pastor. Rev. Julian Hatch, of Grand Island, will preach both morning and evening next Sunday Aug. 18th.

—One of our local merchants was surprised one day this week by receiving a bill accompanying some goods, bearing upon its face, "This bill is payable in gold." He sent them his personal check which would bring the yellow metal. 'Tis thus that eastern business men fear the 16 to 1 craze, which fortunately is dying.

—A gentleman in this city has received a letter from a friend in Nuckolls county in which the writer states that a large party of farmers in that county will visit the irrigated section of this county this fall. Some of these farmers will come prepared to buy land if they are pleased with the outlook.

—Have your dental work done at the H. M. Butt dental parlors.

—A sedate gentleman informs THE TRIBUNE that ex-mayor VonGoetz met with a peculiar and distressing accident last week. The ex-mayor was looking over Bill Collins' farm when a cabbage head burst and struck him in the face. Collins paid the doctor for dressing the wound and will further appease Mr. VonGoetz's wrath by presenting him with a barrel of sauer kraut.

—I. A. Fort received a telegram yesterday from Perry's Park, Cal., announcing the death of his nephew Chas. E. Fort. The young man came to this city from Providence, R. I., last winter, and after remaining here a short time proceeded to Colorado with the hope that the climate there would cure him of pulmonary trouble. Mr. Fort left last night for Perry's Park to take charge of the remains.

—Prof. C. E. Barber returned Saturday morning from a month's recreation in Colorado. During his absence the Professor climbed to the top of Pike's, Gray's and a few of the other peaks in that state, generally taking this exercise before breakfast in order to get an appetite. He brought back his Alpine stock, which he will use on unruly boys during the next school year. The Professor's trip proved of inestimable good to him, having gained seventeen pounds in weight and now tips the beam at 104.

—The entertainment at Keth's hall Friday evening under the auspices of County Supt. Miss Hoeford, and as a diversion for the teachers attending the institute, proved a very interesting one. The attendance was large, being greater than the seating capacity of the hall. Miss Pike, the Denver elocutionist, more than pleased the audience with her recitations and club swinging, and she may be assured a full house at any time in the future she may conclude to be with us. Mrs. Hershey, Mr. Adams and Mr. Hilliker favored the audience with well-rendered vocal solos, and Miss Burke with a piano solo. The 100 or more teachers in attendance were highly pleased with the entertainment.

—Our county commissioners are considerably perplexed as to how to act in regard to the Russian thistle law. They seem to regard the law as impractical and injurious, as it virtually means a confiscation of the lands of non-residents. They also realize that it will mean a great loss in taxes, as probably no one will buy a tax title who cannot be on hand to keep down the thistle after the land has been so purchased. The road overseers and their bondsmen are also placed in a peculiar position. If the law is allowed to grow in any road district the overseers are liable to a fine. In Perkins county the road overseers have all resigned, rather than to take the risk the law involves.

—We learn that Rev. J. C. Irwin is rapidly improving in health at Colorado Springs, where he has been for about two weeks past.

—Invest fifteen cents in a ticket for the concert at the Baptist church this evening. You are sure to be pleased with the programme.

—Marshal Morgan is still employed in the laudable work of killing off uncleaned and worthless curs. He is getting them pretty well cleaned out.

—Cyrus Fox, of Garfield, was in town Saturday and said that crops in that section were grand. They had a very heavy rain on Thursday night of last week.

—Dr. W. A. DeBerry has permanently taken charge of the H. M. Butt dental parlors. He guarantees all work.

—The members of the G. A. R. post and their families, together with some members of the Gody Guard, held a picnic at Hall's grove Saturday. The day was a delightful one and the outing was highly enjoyed by all participants.

—After being in almost consecutive session since January 1st, the county commissioners adjourned Saturday subject to the call of the county clerk. The commissioners will evidently enjoy their vacation, after such a long and arduous siege.

—The north and south side Episcopal Sunday schools will unite to-morrow in a picnic to be held at Hall's grove on the north side of the river. One item of provender which the commissary officer has issued requisition for is 900 sandwiches.

—The Knights of Pythias can congratulate themselves upon having the largest and neatest society hall in the city. With the raising of the ceiling and the new carpet just laid the room certainly presents a fine appearance.

—THE TRIBUNE has been handed a copy of the Precursor, published at National City, Cal., in which appears several articles favorable to the building of the S. D. P. & E. Railway, of which our townsman, Geo. W. Vroman, is president.

—We see it stated that Congressman Kem has purchased a ranch near Montrose, Colo., and will remove there when his term expires. So far as any good he is likely to do his constituents while in congress, he might as well leave the state instant. He never will be missed.

—Crown and bridge work a specialty at the H. M. Butt dental parlors.

—The Little Tycoon will be given at Lloyd's opera house on the evening of the 21st. This is a very catchy opera, has a strong cast and will delight every one who goes to hear. Being produced by a home company it should be well patronized.

—A resident of Kearney, who was in town yesterday, stated that there are 600 vacant houses in that city. He believed, however, that Kearney would some day strike her old-time gait and become the third city of the state. We admire the faith the Kearneyites have in their city.

—While exhibiting at Oswego, N. Y., on Tuesday of last week a portion of Cody's Wild West tent was blown down and several persons injured. There were 12,000 people in the tent at the time, and the Indians prevented a general stampede by crowding their horses against the ropes and keeping the people back.

—John Keith came down from the ranch yesterday and reported that he had a horse stolen the night before. A man employed by Mr. Keith had ridden the horse to a neighboring school house where religious services were being held, and while the man was joining the audience in fervent prayer some ungodly fellow got away with the animal. It was a horse John had owned for a number of years and one that he prized highly. The saddle and bridle on the animal were valued at \$65. As soon as the theft was discovered a posse started out in search of the thief, but no trace of him could be found.

CLINTON, THE JEWELER.

LET US GET A "MOVE"

In the Platte valley of Lincoln county there is more hidden wealth than in any mining section of Colorado, and yet our people are slow to take advantage of the situation. In this valley, a rich empire within itself, are 500,000 acres of land capable of being irrigated, and of this amount fully one-half is already under ditches now completed or which will be finished this fall. Granting that this land was all under cultivation, and that the revenue derived from the products be placed at the low average of fifteen dollars per acre, the yearly value of the products raised within this irrigated section would be \$7,500,000.

These may seem fanciful figures, yet if these lands were brought under a state of intense cultivation, the estimate would be too low instead of too high. But to obtain these results the people of North Platte and the irrigated district must, in the language of the street gamin, "get a move on them." The attention of well-to-do farmers in the eastern states must be called to the advantages possessed by this irrigated district. We must not wait for them to gain this information by the ordinary slow-going methods of disseminating information. We must be active in many ways—by individual efforts and by united efforts. The Lincoln county immigration association is an association which can accomplish much good, but unfortunately the work has so far been borne by a very few individuals. They have continuously solicited the assistance of our citizens generally but the needed help has not been given.

The lack in some instances has been due to selfish motives—some man thinks that some other fellow will make more money than he, and he therefore declines to put his shoulder to the wheel. This selfishness is a detriment to the success of any citizen. When a wave of prosperity rolls over a community all is benefited; the man who does not get his "finger in the pie," is one who is not deserving of success.

Real estate values in North Platte were never so low as at present. Property can not be sold at two-thirds its true valuation, and unless we bestir ourselves and assist in developing the hidden wealth of the section contiguous to our city, these values will further decline. Every home owner, no matter how humble his holdings, will be benefited by the settling up of this naturally rich country.

Were all this land under cultivation the shipment of products from the several railroad stations in the county would exceed those of any county in the state, and many additional train crews would be needed on the Union Pacific. It would also indirectly result in an increased pay-roll in the local Union Pacific shops.

Let us therefore make a united effort to gain results from the advantages a beneficent nature has given us. Let us join hands with the immigration association—or any other organization that may be effected—and secure tillers for our inexhaustible and rich soil, to the end that farmer, business man, artisan and laborer may reap a reward.

Now is the accepted time to do the work. We must get people to visit this section, and after once seeing it they will become impressed with the advantages. Arrangements should be made with the railroads for a series of cheap excursions this fall, and we believe that by united efforts such excursions could be secured.

A series of public meetings should be held in the city at which plans should be formulated and a "campaign of information" inaugurated. Will our citizens heed this call for activity or will they sit idly by, mourn the lack of "business" and eventually get into a lethargy from which even the blare of Gabriel's trumpet could not arouse them.
